TEMPLO® ERGONOMICS ANALYSIS

## OUR REFERENCES

„With TEMPLO® ERGONOMICS I can visualise and discuss with my customers their individual work situation and if necessary implement improvements. If I leave the coaching, the employee already has the detailed analysis in his mailbox! Perfect!“

| Frank Schulte | Owner of Gesundheitscoaching |

„With TEMPLO® TEMPLO® ERGONOMICS we can better adjust our aids to workplace ergonomics as an interface to the physiotherapist we offer a comprehensive concept for maintaining the health of employees in the company.“

| Tino Sprekelmeyer | Managing Director |

## THE ANALYSIS FOR A MORE ERGONOMIC WORKING POSITION

TEMPLO® ERGONOMICS WORK PLACE ANALYSIS – The mobile analysis system for evaluating posture at the workplace. Expand your services in the area of company health management, health days and individual screening measures.

### AIMS AND ACTIVITIES

**+ HOW TO MAKE WORK PLACES MORE ERGONOMIC**  
Step by step TEMPLO® ERGONOMICS leads through the analysis of the sitting or standing position at the work place- FAST - SIMPLE - OBJECTIVE.  
This provides you with all relevant data for the ergonomic adaptation of work equipment such as chair, table, computer, keyboard or mouse.

**+ REDUCE HAZARDS AND COSTS**  
Use TEMPLO® ERGONOMICS to assess hazards in the workplace and change them permanently. Reducing disruptions in business processes caused by downtime and work-related illnesses avoids unnecessary labour costs and increases productivity.

Current working position > Optimized seating position
